

Proof That God Exists

Never has it been more urgently necessary to answer the question “does God exist?”

Atheists and evolutionists **assume** God does **not** exist!

Churchgoers, some Christians **assume** He does!

It is time to quit assuming!

It's time you saw the solid proof of His existence.

There is a delusion gripping the minds of people today, deluding and deceiving them, making them veritable slaves to the concept of “no God.”

Quotation from Sir Julian Huxley, grandson of the famed evolutionary –

“There is no longer either need or room for supernatural beings capable of affecting the course of events in the evolutionary pattern of thought. The earth was not created, it evolved. So did all the animals and plants that inhabit it, including our human selves, mind and soul, as well as brain and body.”

Is there “no longer any need for the concept of God”?

Is the Word of God, the Christian Bible, merely a collection of Hebrew fables?

Or is it the dynamic living Word of an intelligent, all-wise Creator Being?

These questions demand an answer.

Your very present life, the lives of your loved ones, and the future of the world, hang in the balance, needing a true answer to these important questions.

Proof number one –

This proof of the existence of a Creator God is broad, all-encompassing, diverse in its many ramifications, that it is only possible in this article to scratch the surface.

However, there can be no clearer way to substantiate this proof than to quote from a typical college textbook which discards the Christian Bible record.

In the foreword material, the author offers various explanations as to the origin of the earth.

*“Our own galaxy, which we remember is but a tiny part of the universe, has **probably** existed a million, million years.”*

*“**But some progress has been made in attempting to explain** how and when the sun and its nine planets came into being. The study of the solar system owes us **at least a clue** to the origin of that part of the universe most important to us, the earth.”*

*“**The explanation commonly accepted today** called the **hypothesis** of dynamic encounter, formulated about 1900 by T.C. Chamberlain and F.R. Moulton of the University of Chicago. In brief **it suggests** that the solar system had its birth when the sun was approached by another huge star. The latter, through the operation of the law of gravitation, detached from the sun great masses of flaming gas. The orphan masses from the parent sun gradually cooled and crystallised to become the nuclei of*

planets. They continued to revolve around the sun, held in their orbits by the gravitational pull of the parent body. The evolution of the earth to its present state was very gradual.”

[Quotation: ‘*Civilisation Past and Present*’ Wallbank and Taylor; volume one, page 31].

Even though it is outdated in many respects, I quote this statement in full for a very special reason.

Notice carefully the highlighted words in the quotation you have just read.

We have such words in the opening phrases as “*probably, some progress has been made, attempting to explain, at least a clue, explanation commonly accepted, hypothesis, and it suggests.*”

What a collection!

Then, in very careful wording, the book begins to tell of **definite** past occurrences which are **said to have taken place**.

With further analysis the writers admit the existence of our solar system, the sun, another huge star, the operation of the law of gravity, masses of flaming gas that gradually cooled and crystallised.

What a fantastic array!

Here is a tremendous, limitless, imagination-defying expanse, an entire universe, operating within certain, definite, immutable, unchanging laws.

Evolutionists must admit that laws existed

Think of it! All of these myriad laws of heat, light, energy, motion, rotation of astral bodies, law of gravity, the principle of isostasy, which demands that every orbiting body must gradually assume and maintain a near-round shape, and a myriad of other laws are admitted to exist.

Do you begin to comprehend?

By what law did one star approach another?

By what law did heat gradually cool?

By what law was there a “*gravitational pull*”?

By what law was there the very existence and operation of gravity?

By dissecting and looking carefully into statements of some of the preposterous hypotheses which have been advanced as the truth, you begin to see in every case the writers have begun with an orderly law-abiding universe, governed by irrefutable laws.

Did matter, force, energy, laws, evolve?

Evolution purports to explain how the universe, the earth and humanity came to exist.

This is an atheists’ attempt to explain the question of origins without a Creator, without intelligence!

Where do evolutionists start?

Not with any explanation of how matter came to be, without a Creator!

Not with any explanation of how laws came to be or what causes them to work!

Not with any explanation for how matter, force, energy, such laws as gravity and inertia developed without a Creator.

In any explanation of the question of origins, one must explain the original of all life, human, animal and plant.

But evolutionists start with all these things already created and in existence.

Therefore the evolutionists in reality acknowledge creation before any of their explanations actually begin!

They are forced to acknowledge the pre-existence of the Creator.

The existence of law, unchangeable, immutable, irrevocable, unseen and yet active, absolutely demands the existence of a great lawgiver.

James 4:12 [New King James] *“There is one Lawgiver, who is able to save and to destroy. Who are you to judge another?”*

That lawgiver is the eternal Creator God.

Proof number two –

Before seeing this amazing irrefutable proof, it is necessary to state in simple terms the meaning of the word *“evolution.”*

Of course, there are many processes called *“evolution.”*

For example, the development of music from simple to complex is, in a sense, an *“evolutionary”* process, as is true in all technological inventions.

Quotation from *‘Organic Evolution’* by Richard Swann Lull; page 6:

“Evolution is the gradual development from the simple, unorganised condition of primal matter to the complex structure of the physical universe, and in like manner, from the beginning of organic life on the habitable planet, a gradual unfolding and branching out into all the various forms of beings which constitute the animal and plant kingdom.”

Evolution theorises from the beginning of organic life, already having life with which to begin.

Evolution does not show, nor has it ever shown, nor will it ever be able to show, how life itself first came into existence.

The theory of evolution [the word *“theory”* means *“we think”*] states simply that all life forms that we know today, including human beings, have gradually evolved from the most simple forms to the complex, intricate, interdependent species we see about us today, each reproducing according to its own kind.

Evolution postulates that life evolved in a *“gradual process”* by *“resident forces”* into the complexity of life we see about us today.

In this very basic, trunk of the tree of all evolutionary thought, lies one of the greatest proofs of a Creator God.

Evolutionists, geneticists, biologists, scientists in any field whatsoever, have **never** been able to demonstrate, nor to offer the slightest evidence, that the non-living can make itself into the living.

It is true that certain laboratory experiments have taken place in which supposed “*dead cells*” are said to be “*revived*” and brought back to life by the means of certain chemical compounds.

In other experiments, scientists have diligently tried to produce organic-type compounds called amino acids.

This, however, is a far cry from “*spontaneous generation*”!

Chasm between life and death –

There is a yawning chasm of separation between life and death.

This great gap between the non-living and the living is so broad, so insurmountable, so unfathomable, that humans can only “*suppose*” and guess, offering vague, ethereal, nebulous “*theories*” as to how life for the first time “*might have*” begun “*accidentally*.”

Excluding the existence of an all-intelligent Creator!

There is, however, a demonstrable law of science which is an absolute major proof of the existence of a life-giving God.

This is the law of biogenesis!

“*Bio*” means life. “*Genesis*” means beginning.

The law simply stated means that life **only** comes from life. That the non-living can **never** give rise to, or give birth to or produce the living.

There is perhaps no law known to science that can be more firmly and easily demonstrated than the law of biogenesis.

The very existence of life demands a life giver!

Genesis 2:7 [New King James] “*And the LORD God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living being.*”

God states dogmatically that He is the only source of life.

John 1:1-5, 14 [New King James] “*In the beginning was the Word, and the Word was with God, and the Word was God. He was in the beginning with God. All things were made through Him, and without Him nothing was made that was made. In Him was life, and the life was the light of men. And the light shines in the darkness, and the darkness did not comprehend it.*” ... “*And the Word became flesh and dwelt among us, and we beheld His glory, the glory as of the only begotten of the Father, full of grace and truth.*”

Jesus Christ, as one person of the Triune God, gave life to all that He created in the beginning of the existence of the universe, that was made out of nothing, [**Hebrews 11:3**].

God is the great life-giver!

Proof number three –

Many of these amazing proofs of the existence of an Almighty God “*overlap*,” that is, to a degree interrelated with the others.

The theory of evolution begins with matter, laws and “*simple*” life.

What is matter?

Matter occupies space and has weight. It is **not** always necessarily seen, since certain gases, and even the air we breathe, are also classified as “*matter*.”

Until recently, scientists talked about the “*conservation of matter*,” however, with the discoveries in nuclear physics, scientists have now found there is a certain amount of “*disintegration*” in matter.

The deterioration of uranium for example is a scientific fact!

Uranium [U²³⁸] gradually disintegrates through many intermediate stages into lead [Pb²⁰⁶].

Uranium, as you may well know, is radioactive and gives off energy in the form of radiation. There is no proof of new uranium coming into existence today!

Hence science has firmly established that there has been no past eternity of matter.

Matter must have come into existence, at some time created.

Creation, then, demands absolutely a Creator.

What is made requires a Maker.

That which is produced requires a Producer.

Therefore, the third great proof is that the creation requires a great Creator.

Genesis 1:1 [New King James] *“In the beginning God created the heavens and the earth.”*

God claims to be that Creator.

Proof number four –

Genesis 1:24-25 [New King James] *“Then God said, ‘Let the earth bring forth the living creature according to its kind: cattle and creeping thing and beast of the earth, each according to its kind’; and it was so. And God made the beast of the earth according to its kind, cattle according to its kind, and everything that creeps on the earth according to its kind. And God saw that it was good.”*

A statement by the Creator of all things.

Scientists have attempted to show the evolutionary pattern by “*comparative embryology*,” by the study of selective breeding, genetics and various other aspects of biology.

However, there is an absolute, irrefutable, immutable, unchanging law, which absolutely prohibits a jump from one kind to another kind.

Varieties are not kinds –

There are, for example, hundreds of different varieties within the dog kind but they are still dogs, **not** cats, **nor** horses. **Nor** are they even beginning to show a gradual trend towards developing into another kind of animal.

They are all the same kind.

Comparative embryology tries to point out that the beginning embryo of fish, polliwogs and humans look very much alike.

This is true, but while it proves absolutely nothing for the case of evolution, this does offer a stronger proof of the existence of a Creator God.

Scientists are defied to attempt to make the embryo of a fish turn out to be a polliwog, a human, or anything other than a fish of the exact same kind of fish which laid the egg in the first place.

Scientists have attempted to prove their evolutionary theories by “*selective breeding*” and studies in “*mutations.*”

These do **not** prove evolution! They prove, rather, the existence of absolute, unchangeable laws governing the reproduction of all animal and plant life, and that those laws function within certain limited bounds that cannot be transcended or broken.

While we are able to breed and cultivate today new varieties within a great kind, they are still of the same kind and not a totally new type of life.

Scientists working in laboratories can arrange an absolute pattern of just how the genes and chromosomes are going to react in the interbreeding of certain animals according to their colouring and various characteristics, in advance.

Again, this does not prove anything except demonstrate the existence of an all-wise, all-powerful Creator God who made these laws, and who also sustains them.

In attempting to array the skeletons of an orang-utan, chimpanzee, ape, gorilla and a human, evolutionists falsely assure us that the definite pattern shows all have come from one common ancestor.

Again, this merely serves to show another clear proof of a Creator God.

It does **not** prove an evolutionary process, but it does prove, rather, if we are willing to look at the facts, similarity of design.

It shows that the same “*architect*” had the same general plan and design in mind.

It shows functional similarity, **not** the evolution of one into another.

Proof number five –

We live in a complex, intricate and interdependent world.

Life, as we know it, is entirely interdependent upon other forms of life.

Nothing lives or dies to itself.

Evolutionists, I want you to try to answer some questions!

Which “*evolved*” first, the flower or the bee?

Did the flowers and flowering trees all evolve slowly and gradually over a period of millions or billions of years independently of the little bee, upon which they must rely for their very continuation of life?

Which came first, the chicken or the egg?

This is a question which the evolutionist feels worthy only of disdain.

Why?

Simply because they **cannot** answer it.

It is better, from their point of view, to merely scoff, make fun of and attempt to dismiss such questions because they know they are unanswerable.

This total interdependency of all life forms and the tremendous design within this universe shows a common Beginner, one main Architect, one great Designer, with an overall framework of a planned creation into which all life forms fit. Design in the universe proves the existence of a Designer.

Proof number six –

This sixth proof of the existence of an Almighty God is perhaps the most astounding of all.

About one third of God’s Word, the Christian Bible, is prophecy, and while most of that one third pertains to our present world, there are many prophecies which have already been fulfilled and which are presently being fulfilled.

God sent His prophets thousands of years ago to such major cities as Babylon, Ekron, Ashdod, Ashkelon and Sidon with a message that foretold the events which were to befall each of these ancient cities.

Without fail, in every single instance, exactly at the time prescribed, all these prophesied events happened!

The very fact that God is able to foretell the future and bring it to pass, is a great proof of His existence.

Isaiah 46:8-10 [New King James] *“Remember this, and show yourselves men; recall to mind, O you transgressors. Remember the former things of old, for I am God, and there is no other; I am God, and there is none like Me, declaring the end from the beginning, and from ancient times things that are not yet done, saying, ‘My counsel shall stand, and I will do all My pleasure.’”*

This is the God that all evolutionists will have to face in judgement some day.

Proof number seven –

The last proof is perhaps the greatest proof of all for all true Christians.

It is the proof of answered prayer.

The Creator God has recorded in His Word, the Christian Bible, examples of answered prayer for many who were faithful to Him and believed in His existence.

God answers Moses’ prayers – **Exodus 15:23-25; Exodus 17:1-7; Numbers 11:10-20.**

God answers the prayers of Hannah for a son – **1 Samuel 1:1-20.**

God answers the prayers of Solomon – **2 Chronicles 1:7-12; 1 Kings 9:1-5.**

God answers prayers for healing – **James 5:13-16; Acts 9:36-42.**

Real answered prayer is not the mere working out of events as a result of concentrated thinking so called “*positive thinking*” or a psychological adjustment.

This is gross error, for real answered prayer is a direct, completely miraculous, supernatural intervention from Almighty God!

It is the result of being obedient to God's laws, asking according to His will, and then a believing faith until the answer comes.

Conclusion –

These seven, irrefutable, unchallengeable proofs of the existence of the Almighty God represent only the beginning of the subject.

They are, nevertheless, proofs.

It is about time people quit assuming, it is about time they began to really prove God's existence by working to have an intimate relationship with Him, through the study of His Word, the Christian Bible, and talking to Him in prayer.

Then you will be able to join Job in his confidence of his redeemer and God.

Job 19:25 [New King James] *“For I know that my Redeemer lives, and He shall stand at last on the earth;”*

Finally to the hostile, prejudiced sceptic, who stubbornly refuses to believe anything they do not want to believe, even on seeing proof.

They will have the chance after the Second Coming of Jesus Christ to see with their own eyes the supreme power and glory of the Creator God, and then will know that He is a real and living God.

Ezekiel 38:23 [New King James] *“Thus I will magnify Myself and sanctify Myself, and I will be known in the eyes of many nations. Then they shall know that I am the LORD.”*

May this day soon dawn.
